136 /// Другие варианты реализации транзакций (атомарности):
137 /// 1. Разделение хранения значения связи ((Source Target) или (Source Linker
138     ↳ Target)) и индексов.
139 /// 2. Хранение трансформаций/операций в отдельном хранилище Links, но дополнительно
140     ↳ потребуется решить вопрос
141 /// со ссылками на внешние идентификаторы, или как-то иначе решить вопрос с
142     ↳ пересечениями идентификаторов.
143 ///
144 /// Где хранить промежуточный список транзакций?
145 ///
146 /// В оперативной памяти:
147 /// Минусы:
148 /// 1. Может усложнить систему, если она будет функционировать самостоятельно,
149     ↳ так как нужно отдельно выделять память под список трансформаций.
150 /// 2. Выделенной оперативной памяти может не хватить, в том случае,
151     ↳ если транзакция использует слишком много трансформаций.
152 /// -> Можно использовать жёсткий диск для слишком длинных транзакций.
153 /// -> Максимальный размер списка трансформаций можно ограничить / задать
154     ↳ константой.
155 /// 3. При подтверждении транзакции (Commit) все трансформации записываются разом
156     ↳ создавая задержку.
157 ///
158 /// На жёстком диске:
159 /// Минусы:
160 /// 1. Длительный отклик, на запись каждой трансформации.
161 /// 2. Лог транзакций дополнительно наполняется отменёнными транзакциями.
162     ↳ -> Это может решаться упаковкой/исключением дублирующих операций.
163     ↳ -> Также это может решаться тем, что короткие транзакции вообще
164     ↳ не будут записываться в случае отката.
165 /// 3. Перед тем как выполнять отмену операций транзакции нужно дождаться пока все
166     ↳ операции (трансформации)
167     ↳ будут записаны в лог.

384     ↪ version] (https://github.com/Konard/LinksPlatform/wiki/About-the-beginning))

```

Обозначение пустоты, какое оно? Темнота ли это? Там где отсутствие света, отсутствие фотонов  
 ↪ (носителей света)? Или это то, что полностью отражает свет? Пустой белый лист бумаги? Там  
 ↪ где есть место для нового начала? Разве пустота это не характеристика пространства?  
 ↪ Пространство это то, что можно чем-то наполнить?

385 [![чёрное пространство, белое  
→ пространство](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/1.png  
→ "чёрное пространство, белое пространство")](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/1.png)

386

387 Что может быть минимальным рисунком, образом, графикой? Может быть это точка? Это ли простейшая  
→ форма? Но есть ли у точки размер? Цвет? Масса? Координаты? Время существования?

388

389 [![чёрное пространство, чёрная  
→ точка](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/2.png  
→ "чёрное пространство, чёрная  
→ точка")](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/2.png)

390

391 А что если повторить? Сделать копию? Создать дубликат? Из одного сделать два? Может это быть  
→ так? Инверсия? Отражение? Сумма?

392

393 [![белая точка, чёрная  
→ точка](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/3.png "белая  
→ точка, чёрная  
→ точка")](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/3.png)

394

395 А что если мы вообразим движение? Нужно ли время? Каким самым коротким будет путь? Что будет  
→ если этот путь зафиксировать? Запомнить след? Как две точки становятся линией? Чертой?  
→ Грань? Разделителем? Единицей?

396

397 [![две белые точки, чёрная вертикальная  
→ линия](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/4.png "две  
→ белые точки, чёрная вертикальная  
→ линия")](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/4.png)

398

399 Можно ли замкнуть движение? Может ли это быть кругом? Можно ли замкнуть время? Или остаётся  
→ только спираль? Но что если замкнуть предел? Создать ограничение, разделение? Получится  
→ замкнутая область? Полностью отделённая от всего остального? Но что это всё остальное? Что  
→ можно делить? В каком направлении? Ничего или всё? Пустота или полнота? Начало или конец?  
→ Или может быть это единица и ноль? Дуальность? Противоположность? А что будет с кругом если  
→ у него нет размера? Будет ли круг точкой? Точка состоящая из точек?

400

401 [![белая вертикальная линия, чёрный  
→ круг](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/5.png "белая  
→ вертикальная линия, чёрный  
→ круг")](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/5.png)

402

403 Как ещё можно использовать грань, черту, линию? А что если она может что-то соединять, может  
→ тогда её нужно повернуть? Почему то, что перпендикулярно вертикальному горизонтально?  
→ Горизонт? Инвертирует ли это смысл? Что такое смысл? Из чего состоит смысл? Существует ли  
→ элементарная единица смысла?

404

405 [![белый круг, чёрная горизонтальная  
→ линия](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/6.png "белый  
→ круг, чёрная горизонтальная  
→ линия")](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/6.png)

406

407 Соединять, допустим, а какой смысл в этом есть ещё? Что если помимо смысла "соединить",  
→ связать"", есть ещё и смысл направления ""от начала к концу""? От предка к потомку? От  
→ родителя к ребёнку? От общего к частному?

408

409 [![белая горизонтальная линия, чёрная горизонтальная  
→ стрелка](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/7.png  
→ "белая горизонтальная линия, чёрная горизонтальная  
→ стрелка")](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/7.png)

410

411 Шаг назад. Возьмём опять отделённую область, которая лишь та же замкнутая линия, что ещё она  
→ может представлять собой? Объект? Но в чём его суть? Разве не в том, что у него есть  
→ граница, разделяющая внутреннее и внешнее? Допустим связь, стрелка, линия соединяет два  
→ объекта, как бы это выглядело?

412

413 [![белая связь, чёрная направленная  
→ связь](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/8.png "белая  
→ связь, чёрная направленная  
→ связь")](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/8.png)

414

415 Допустим у нас есть смысл "связать" и смысл "направления", много ли это нам даёт? Много ли  
→ вариантов интерпретации? А что если уточнить, каким именно образом выполнена связь? Что если  
→ можно задать ей чёткий, конкретный смысл? Что это будет? Тип? Глагол? Связка? Действие?  
→ Трансформация? Переход из состояния в состояние? Или всё это и есть объект, суть которого в  
→ его конечном состоянии, если конечно конец определён направлением?

416

```

417  [![белая обычная и направленная связи, чёрная типизированная
    ↳  связь](https://raw.githubusercontent.com/Konard/LinksPlatform/master/doc/Intro/9.png "белая
